Hi, Gina, Duncan – Thanks for also reviewing this ESA draft rule. I've looked it over from a 404 program assumption perspective and don't have comments to transmit. I'm not an ESA expert, though, so I defer to the two of you to consolidate comments for transmittal to OMB via Tina Martin (our R4 liaison for such matters), and to Tom, Annie, and ORC for any review needed along that path.

Thanks,
Rosemary

Hey Rosemary,

Thanks for the super-sleuthing!! Are you and Phil working together to submit actual comments on the proposed rule - the one that is due Monday? If so, what process are you going through to get approval to submit those comments? I.e., are you routing them through Mary, meeting with her this week, etc.? Thanks!!

Hi, folks – I just did a little sleuthing and learned that this FWS/NOAA Draft Rule on ESA Cooperation (re: section 7) has been out a while.

Comments within R4 are due Monday, 4/16, with all agency comments due (from liaisons) to OMB next Wednesday, 4/18.

I asked our R4 liaison for a copy of the instructions that go with it and will forward in a moment.

1. Conservation of Endangered and Threatened Species; Revision of Regulations To Address Interagency Cooperation

RIN: 1018-BC87

The two other ESA draft rules referenced in the supplementary information are also out for comment, due to the R4 liaison the following Monday, 4/23 (and to OMB 4/25). I will forward those draft rules and commenting instructions, as well.
